

Elementary/Middle School Rankings Based on Index Scores from May 2009 NH-Alt and October 2009 NECAP Statewide Assessments

Content: Reading

Sorted by: Name

The data provided in these rankings are based on the same performance index method that is used to produce Adequate Yearly Progress index scores. Schools and districts receive a rank based on their index score. A rank of "1" represents the best performance. When a previous index score is available, a separate ranking is also calculated based on the improvement in the index score from one year to the next year. Schools or districts that have the same index score (or the same improvement in index score) earn the same rank. The schools and districts are sorted three ways: alphabetically, by index score ranking, and by improvement ranking. Rankings are assigned by content area. Writing results were not ranked at grades 5 and 8 because a pilot test was administered and no scores were produced and the grade 11 writing test is never ranked because it is a 1-item test.

District	School	No. of Students Included in the Index Score Ranking [†]	Current Year Reading Index Score and SE [‡]	Index Score Ranking of 375	No. of Students Included in the Prior Year Index Score Ranking	Prior Year Index Score and SE [‡]	Index Score Improvement	Index Score Improvement Ranking of 373
State of New Hampshire	State of New Hampshire	87034	91.3 (+/- *)	222	88154	90.4 (+/- *)	0.9	164
Academy for Science and Design	Academy for Sci & Design-M	21	98.1 (+/- 1.3)	6	12	95.0 (+/- 5.0)	3.1	61
Allenstown	Allenstown Elementary School	163	91.2 (+/- 1.4)	227	115	86.3 (+/- 2.1)	4.9	18
Allenstown	Armand R. Dupont School	81	91.6 (+/- 2.0)	210	158	88.1 (+/- 1.7)	3.5	53
Alton	Alton Central School (Elem)	381	92.8 (+/- 0.8)	163	387	87.9 (+/- 1.1)	4.9	18
Amherst	Amherst Middle School	559	97.4 (+/- 0.4)	12	565	95.7 (+/- 0.5)	1.7	107
Amherst	Clark-Wilkins Elementary Sch	495	96.6 (+/- 0.5)	37	500	95.4 (+/- 0.6)	1.2	137
Andover	Andover Elementary School	149	94.9 (+/- 1.1)	89	151	93.2 (+/- 1.2)	1.7	107
Ashland	Ashland Elementary School	102	97.3 (+/- 1.1)	16	97	95.5 (+/- 1.3)	1.8	104
Auburn	Auburn Village School	411	95.8 (+/- 0.6)	60	435	95.4 (+/- 0.6)	0.4	192
Barnstead	Barnstead Elementary School	325	85.3 (+/- 1.3)	336	338	85.5 (+/- 1.3)	-0.2	244
Barrington	Barrington Elementary School	304	91.6 (+/- 1.1)	210	291	89.9 (+/- 1.2)	1.7	107
Barrington	Barrington Middle School	280	90.1 (+/- 1.1)	262	281	87.3 (+/- 1.2)	2.8	69
Bartlett	Josiah Bartlett Elementary Sch	186	96.5 (+/- 0.9)	43	197	94.7 (+/- 1.1)	1.8	104
Bath	Bath Village School	44	92.7 (+/- 2.3)	168	45	95.1 (+/- 2.2)	-2.4	343

[†] Number of students who contributed to the index score.

[‡] There is some variation associated with all measurement, including test scores. For example, the results of public opinion polls are reported with a margin of error, such as 54 percent plus or minus (+/-) five percent. On these ranking lists the reported variation is the standard error of the mean (SE). Please note that as the number of students increases, the SE decreases.

* The SE is less than 0.1.

"A" A ranking is not assigned when fewer than eleven (11) student scores are included in the index score for a school or district.

"B" A ranking is not assigned for index score improvement if fewer than eleven (11) student scores were included in either the current or prior year index score.

"NA" Data is not available.

[†] Number of students who contributed to the index score.

[‡] There is some variation associated with all measurement, including test scores. For example, the results of public opinion polls are reported with a margin of error, such as 54 percent plus or minus (+/-) five percent. On these ranking lists the reported variation is the standard error of the mean (SE). Please note that as the number of students increases, the SE decreases.

* The SE is less than 0.1.

"A" A ranking is not assigned when fewer than eleven (11) student scores are included in the index score for a school or district.

"B" A ranking is not assigned for index score improvement if fewer than eleven (11) student scores were included in either the current or prior year index score.

"NA" Data is not available.

Elementary/Middle School Rankings Based on Index Scores from May 2009 NH-Alt and October 2009 NECAP Statewide Assessments

Content: Reading

Sorted by: Name

The data provided in these rankings are based on the same performance index method that is used to produce Adequate Yearly Progress index scores. Schools and districts receive a rank based on their index score. A rank of "1" represents the best performance. When a previous index score is available, a separate ranking is also calculated based on the improvement in the index score from one year to the next year. Schools or districts that have the same index score (or the same improvement in index score) earn the same rank. The schools and districts are sorted three ways: alphabetically, by index score ranking, and by improvement ranking. Rankings are assigned by content area. Writing results were not ranked at grades 5 and 8 because a pilot test was administered and no scores were produced and the grade 11 writing test is never ranked because it is a 1-item test.

Lincoln-Woodstock Cooperative	Lin-Wood Public School (Middle	63	88.6 (+/- 2.2)	292	57	87.4 (+/- 2.7)	1.2	137
Lisbon Regional	Lisbon Regional School (Elem)	99	91.9 (+/- 1.9)	196	98	92.0 (+/- 1.9)	-0.1	236

[†] Number of students who contributed to the index score.

[‡] There is some variation associated with all measurement, including test scores. For example, the results of public opinion polls are reported with a margin of error, such as 54 percent plus or minus (+/-) five percent. On these ranking lists the reported variation is the standard error of the mean (SE). Please note that as the number of students increases, the SE decreases.

* The SE is less than 0.1.

"A" A ranking is not assigned when fewer than eleven (11) student scores are included in the index score for a school or district.

"B" A ranking is not assigned for index score improvement if fewer than eleven (11) student scores were included in either the current or prior year index score.

"NA" Data is not available.

Elementary/Middle School Rankings Based on Index Scores from May 2009 NH-Alt and October 2009 NECAP Statewide Assessments

Content: Reading

Sorted by: Name

The data provided in these rankings are based on the same performance index method that is used to produce Adequate Yearly Progress index scores. Schools and districts receive a rank based on their index score. A rank of "1" represents the best performance. When a previous index score is available, a separate ranking is also calculated based on the improvement in the index score from one year to the next year. Schools or districts that have the same index score (or the same improvement in index score) earn the same rank. The schools and districts are sorted three ways: alphabetically, by index score ranking, and by improvement ranking. Rankings are assigned by content area. Writing results were not ranked at grades 5 and 8 because a pilot test was administered and no scores were produced and the grade 11 writing test is never ranked because it is a 1-item test.

Sorted by: Name

The data provided in these rankings are based on the same performance index method that is used to produce Adequate Yearly Progress index scores. Schools and districts receive a rank based on their index score. A rank of "1" represents the best performance. When a previous index score is available, a separate ranking is also calculated based on the improvement in the index score from one year to the next year. Schools or districts that have the same index score (or the same improvement in index score) earn the same rank. The schools and districts are sorted three ways: alphabetically, by index score ranking, and by improvement ranking. Rankings are assigned by content area. Writing results were not ranked at grades 5 and 8 because a pilot test was administered and no scores were produced and the grade 11 writing test is never ranked because it is a 1-item test.

District	School	No. of Students Included in the Index Score Ranking [†]	Current Year Reading Index Score and SE [‡]	Index Score Ranking of 375	No. of Students Included in the Prior Year Index Score Ranking	Prior Year Index Score and SE [‡]	Index Score Improvement	Index Score Improvement Ranking of 373

Newmarket	Newmarket Jr.-Sr. High (Elem)	133	92.3 (+/- 1.5)	185	134	94.0 (+/- 1.3)	-1.7	322
Newport	Newport Middle School	69	89.3 (+/- 2.4)	277	140	87.4 (+/- 1.9)	1.9	101
Newport	Richards Elementary School	204	89.3 (+/- 1.5)	277	130	86.6 (+/- 1.9)	2.7	74

[†] Number of students who contributed to the index score.

[‡] There is some variation associated with all measurement, including test scores. For example, the results of public opinion polls are reported with a margin of error, such as 54 percent plus or minus (+/-) five percent. On these ranking lists the reported variation is the standard error of the mean (SE). Please note that as the number of students increases, the SE decreases.

* The SE is less than 0.1.

"A" A ranking is not assigned when fewer than eleven (11) student scores are included in the index score for a school or district.

"B" A ranking is not assigned for index score improvement if fewer than eleven (11) student scores were included in either the current or prior year index score.

"NA" Data is not available.

[†] Number of students who contributed to the index score.

[‡] There is some variation associated with all measurement, including test scores. For example, the results of public opinion polls are reported with a margin of error, such as 54 percent plus or minus (+/-) five percent. On these ranking lists the reported variation is the standard error of the mean (SE). Please note that as the number of students increases, the SE decreases.

* The SE is less than 0.1.

"A" A ranking is not assigned when fewer than eleven (11) student scores are included in the index score for a school or district.

"B" A ranking is not assigned for index score improvement if fewer than eleven (11) student scores were included in either the current or prior year index score.

"NA" Data is not available.

Elementary/Middle School Rankings Based on Index Scores from May 2009 NH-Alt and October 2009 NECAP Statewide Assessments

Content: Reading

Sorted by: Name

The data provided in these rankings are based on the same performance index method that is used to produce Adequate Yearly Progress index scores. Schools and districts receive a rank based on their index score. A rank of "1" represents the best performance. When a previous index score is available, a separate ranking is also calculated based on the improvement in the index score from one year to the next year. Schools or districts that have the same index score (or the same improvement in index score) earn the same rank. The schools and districts are sorted three ways: alphabetically, by index score ranking, and by improvement ranking. Rankings are assigned by content area. Writing results were not ranked at grades 5 and 8 because a pilot test was administered and no scores were produced and the grade 11 writing test is never ranked because it is a 1-item test.

The schools and districts are sorted three ways: alphabetically, by index score ranking, and by improvement ranking. Rankings are assigned by content area. Writing results were not ranked at grades 5 and 8 because a pilot test was administered and no scores were produced and the grade 11 writing test is never ranked because it is a 1-item test.

Moultonborough	Moultonborough Central School	207	95.5 (+/- 0.9)	68	214	95.4 (+/- 0.9)	0.1	218

[†] Number of students who contributed to the index score.

[‡] There is some variation associated with all measurement, including test scores. For example, the results of public opinion polls are reported with a margin of error, such as 54 percent plus or minus (+/-) five percent. On these ranking lists the reported variation is the standard error of the mean (SE). Please note that as the number of students increases, the SE decreases.

* The SE is less than 0.1.

"A" A ranking is not assigned when fewer than eleven (11) student scores are included in the index score for a school or district.

"B" A ranking is not assigned for index score improvement if fewer than eleven (11) student scores were included in either the current or prior year index score.

"NA" Data is not available.

Elementary/Middle School Rankings Based on Index Scores from May 2009 NH-Alt and October 2009 NECAP Statewide Assessments Content: Reading

Sorted by: Index Score Ranking

The data provided in these rankings are based on the same performance index method that is used to produce Adequate Yearly Progress index scores. Schools and districts receive a rank based on their index score. A rank of "1" represents the best performance. When a previous index score is available, a separate ranking is also calculated based on the improvement in the index score from one year to the next year. Schools or districts that have the same index score (or the same improvement in index score) earn the same rank. The schools and districts are sorted three ways: alphabetically, by index score ranking, and by improvement ranking. Rankings are assigned by content area. Writing results were not ranked at grades 5 and 8 because a pilot test was administered and no scores were produced and the grade 11 writing test is never ranked because it is a 1-item test.

[†] Number of students who contributed to the index score.

[‡] There is some variation associated with all measurement, including test scores. For example, the results of public opinion polls are reported with a margin of error, such as 54 percent plus or minus (+/-) five percent. On these ranking lists the reported variation is the standard error of the mean (SE). Please note that as the number of students increases, the SE decreases.

* The SE is less than 0.1.

"A" A ranking is not assigned when fewer than eleven (11) student scores are included in the index score for a school or district.

"B" A ranking is not assigned for index score improvement if fewer than eleven (11) student scores were included in either the current or prior year index score.

"NA" Data is not available.

Elementary/Middle School Rankings Based on Index Scores from May 2009 NH-Alt and October 2009 NECAP Statewide Assessments Content: Reading

Sorted by: Index Score Ranking

The data provided in these rankings are based on the same performance index method that is used to produce Adequate Yearly Progress index scores. Schools and districts receive a rank based on their index score. A rank of "1" represents the best performance. When a previous index score is available, a separate ranking is also calculated based on the improvement in the index score from one year to the next year. Schools or districts that have the same index score (or the same improvement in index score) earn the same rank. The schools and districts are sorted three ways: alphabetically, by index score ranking, and by improvement ranking. Rankings are assigned by content area. Writing results were not ranked at grades 5 and 8 because a pilot test was administered and no scores were produced and the grade 11 writing test is never ranked because it is a 1-item test.

Dover	Garrison School	310	90.8 (+/- 1.2)	237	281	92.6 (+/- 1.0)	-1.8	326
Northumberland	Groveton Elementary School	124	90.8 (+/- 1.5)	237	144	90.7 (+/- 1.6)	0.1	218

[†] Number of students who contributed to the index score.

[‡] There is some variation associated with all measurement, including test scores. For example, the results of public opinion polls are reported with a margin of error, such as 54 percent plus or minus (+/-) five percent. On these ranking lists the reported variation is the standard error of the mean (SE). Please note that as the number of students increases, the SE decreases.

* The SE is less than 0.1.

"A" A ranking is not assigned when fewer than eleven (11) student scores are included in the index score for a school or district.

"B" A ranking is not assigned for index score improvement if fewer than eleven (11) student scores were included in either the current or prior year index score.

"NA" Data is not available.

Elementary/Middle School Rankings Based on Index Scores from May 2009 NH-Alt and October 2009 NECAP Statewide Assessments Content: Reading

Sorted by: Index Score Ranking

The data provided in these rankings are based on the same performance index method that is used to produce Adequate Yearly Progress index scores. Schools and districts receive a rank based on their index score. A rank of "1" represents the best performance. When a previous index score is available, a separate ranking is also calculated based on the improvement in the index score from one year to the next year. Schools or districts that have the same index score (or the same improvement in index score) earn the same rank. The schools and districts are sorted three ways: alphabetically, by index score ranking, and by improvement ranking. Rankings are assigned by content area. Writing results were not ranked at grades 5 and 8 because a pilot test was administered and no scores were produced and the grade 11 writing test is never ranked because it is a 1-item test.

"B" A ranking is not assigned for index score improvement if fewer than eleven (11) student scores were included in either the current or prior year index score.

"NA" Data is not available.

Elementary/Middle School Rankings Based on Index Scores from May 2009 NH-Alt and October 2009 NECAP Statewide Assessments Content: Reading

Sorted by: Index Score Ranking

The data provided in these rankings are based on the same performance index method that is used to produce Adequate Yearly Progress index scores. Schools and districts receive a rank based on their index score. A rank of "1" represents the best performance. When a previous index score is available, a separate ranking is also calculated based on the improvement in the index score from one year to the next year. Schools or districts that have the same index score (or the same improvement in index score) earn the same rank. The schools and districts are sorted three ways: alphabetically, by index score ranking, and by improvement ranking. Rankings are assigned by content area. Writing results were not ranked at grades 5 and 8 because a pilot test was administered and no scores were produced and the grade 11 writing test is never ranked because it is a 1-item test.

District	School	No. of Students Included in the Index Score Ranking [†]	Current Year Reading Index Score and SE [‡]	Index Score Ranking of 375	No. of Students Included in the Prior Year Index Score Ranking	Prior Year Index Score and SE [‡]	Index Score Improvement	Index Score Improvement Ranking of 373

For example, the results of public opinion polls are reported with a margin of error, such as 54 percent plus or minus (+/-) five percent. On these ranking lists the reported variation is the standard error of the mean (SE). Please note that as the number of students increases, the SE decreases.

* The SE is less than 0.1.

"A" A ranking is not assigned when fewer than eleven (11) student scores are included in the index score for a school or district.

"B" A ranking is not assigned for index score improvement if fewer than eleven (11) student scores were included in either the current or prior year index score.

"NA" Data is not available.

Elementary/Middle School Rankings Based on Index Scores from May 2009 NH-Alt and October 2009 NECAP Statewide Assessments Content: Reading

Sorted by: Index Score Improvement Ranking

The data provided in these rankings are based on the same performance index method that is used to produce Adequate Yearly Progress index scores. Schools and districts receive a rank based on their index score. A rank of "1" represents the best performance. When a previous index score is available, a separate ranking is also calculated based on the improvement in the index score from one year to the next year. Schools or districts that have the same index score (or the same improvement in index score) earn the same rank. The schools and districts are sorted three ways: alphabetically, by index score ranking, and by improvement ranking. Rankings are assigned by content area. Writing results were not ranked at grades 5 and 8 because a pilot test was administered and no scores were produced and the grade 11 writing test is never ranked because it is a 1-item test.

District	School	No. of Students Included in the Index Score Ranking [†]	Current Year Reading Index Score and SE [‡]	Index Score Ranking of 375	No. of Students Included in the Prior Year Index Score Ranking	Prior Year Index Score and SE [‡]	Index Score Improvement	Index Score Improvement Ranking of 373

[†] Number of students who contributed to the index score.

[‡] There is some variation associated with all measurement, including test scores. For example, the results of public opinion polls are reported with a margin of error, such as 54 percent plus or minus (+/-) five percent. On these ranking lists the reported variation is the standard error of the mean (SE). Please note that as the number of students increases, the SE decreases.

* The SE is less than 0.1.

"A" A ranking is not assigned when fewer than eleven (11) student scores are included in the index score for a school or district.

"B" A ranking is not assigned for index score improvement if fewer than eleven (11) student scores were included in either the current or prior year index score.

"NA" Data is not available.

Elementary/Middle School Rankings Based on Index Scores from May 2009 NH-Alt and October 2009 NECAP Statewide Assessments Content: Reading

Sorted by: Index Score Improvement Ranking

The data provided in these rankings are based on the same performance index method that is used to produce Adequate Yearly Progress index scores. Schools and districts receive a rank based on their index score. A rank of "1" represents the best performance. When a previous index score is available, a separate ranking is also calculated based on the improvement in the index score from one year to the next year. Schools or districts that have the same index score (or the same improvement in index score) earn the same rank. The schools and districts are sorted three ways: alphabetically, by index score ranking, and by improvement ranking. Rankings are assigned by content area. Writing results were not ranked at grades 5 and 8 because a pilot test was administered and no scores were produced and the grade 11 writing test is never ranked because it is a 1-item test.

[†] Number of students who contributed to the index score.

[‡] There is some variation associated with all measurement, including test scores. For example, the results of public opinion polls are reported with a margin of error, such as 54 percent plus or minus (+/-) five percent. On these ranking lists the reported variation is the standard error of the mean (SE). Please note that as the number of students increases, the SE decreases.

* The SE is less than 0.1.

"A" A ranking is not assigned when fewer than eleven (11) student scores are included in the index score for a school or district.

"B" A ranking is not assigned for index score improvement if fewer than eleven (11) student scores were included in either the current or prior year index score.

"NA" Data is not available.

Elementary/Middle School Rankings Based on Index Scores from May 2009 NH-Alt and October 2009 NECAP Statewide Assessments Content: Reading

Sorted by: Index Score Improvement Ranking

The data provided in these rankings are based on the same performance index method that is used to produce Adequate Yearly Progress index scores. Schools and districts receive a rank based on their index score. A rank of "1" represents the best performance. When a previous index score is available, a separate ranking is also calculated based on the improvement in the index score from one year to the next year. Schools or districts that have the same index score (or the same improvement in index score) earn the same rank. The schools and districts are sorted three ways: alphabetically, by index score ranking, and by improvement ranking. Rankings are assigned by content area. Writing results were not ranked at grades 5 and 8 because a pilot test was administered and no scores were produced and the grade 11 writing test is never ranked because it is a 1-item test.

Dresden	Frances C. Richmond School	257	97.0 (+/- 0.6)	24	228	97.9 (+/- 0.6)	-0.9	294

[†] Number of students who contributed to the index score.

[‡] There is some variation associated with all measurement, including test scores. For example, the results of public opinion polls are reported with a margin of error, such as 54 percent plus or minus (+/-) five percent. On these ranking lists the reported variation is the standard error of the mean (SE). Please note that as the number of students increases, the SE decreases.

* The SE is less than 0.1.

"A" A ranking is not assigned when fewer than eleven (11) student scores are included in the index score for a school or district.

"B" A ranking is not assigned for index score improvement if fewer than eleven (11) student scores were included in either the current or prior year index score.

"NA" Data is not available.

Elementary/Middle School Rankings Based on Index Scores from May 2009 NH-Alt and October 2009 NECAP Statewide Assessments Content: Reading

Sorted by: Index Score Improvement Ranking

The data provided in these rankings are based on the same performance index method that is used to produce Adequate Yearly Progress index scores. Schools and districts receive a rank based on their index score. A rank of "1" represents the best performance. When a previous index score is available, a separate ranking is also calculated based on the improvement in the index score from one year to the next year. Schools or districts that have the same index score (or the same improvement in index score) earn the same rank. The schools and districts are sorted three ways: alphabetically, by index score ranking, and by improvement ranking. Rankings are assigned by content area. Writing results were not ranked at grades 5 and 8 because a pilot test was administered and no scores were produced and the grade 11 writing test is never ranked because it is a 1-item test.

Schools or districts that have the same index score (or the same improvement in index score) earn the same rank. The schools and districts are sorted three ways: alphabetically, by index score ranking, and by improvement ranking. Rankings are assigned by content area. Writing results were not ranked at grades 5 and 8 because a pilot test was administered and no scores were produced and the grade 11 writing test is never ranked because it is a 1-item test.

District	School	No. of Students Included in the Index Score Ranking†	Current Year Reading Index Score and SE‡	Index Score Ranking of 375	No. of Students Included in the Prior Year Index Score Ranking	Prior Year Index Score and SE‡	Index Score Improvement	Index Score Improvement Ranking of 373
State of New Hampshire	State of New Hampshire	87034	91.3 (+/- *)	222	88154	90.4 (+/- *)	0.9	164
Pembroke	Pembroke Village School	0	-	A	0	-	-	B
Monadnock Regional	Sullivan Central School	10	-	A	29	92.4 (+/- 3.5)	-	B
Nashua	The Phoenix Program (M)	14	55.7 (+/- 6.7)	375	0	-	-	B
Virtual Learning Academy Chart	Virtual Learning Academy (E)	0	-	A	0	-	-	B
Fall Mountain Regional	Walpole Primary School	0	-	A	39	95.4 (+/- 2.1)	-	B

† Number of students who contributed to the index score.

‡ There is some variation associated with all measurement, including test scores. For example, the results of public opinion polls are reported with a margin of error, such as 54 percent plus or minus (+/-) five percent. On these ranking lists the reported variation is the standard error of the mean (SE). Please note that as the number of students increases, the SE decreases.

* The SE is less than 0.1.

"A" A ranking is not assigned when fewer than eleven (11) student scores are included in the index score for a school or district.

"B" A ranking is not assigned for index score improvement if fewer than eleven (11) student scores were included in either the current or prior year index score.

"NA" Data is not available.
