

High School District Rankings Based on Index Scores from May 2008 NH-Alt and October 2008 NECAP Statewide Assessments Content: Mathematics

Sorted by: Name

The data on these ranking lists are based on the performance index scores that are calculated during Adequate Yearly Progress (AYP) reporting. Schools and districts receive a rank based on their index score. A rank of "1" represents the best performance. When a previous index score is available, a separate ranking is also calculated based on the improvement in the index score from one year to the next year. Schools that have the same index score (or the same improvement in index score) earn the same rank. Rankings are assigned by content area. The schools and districts are sorted three ways: alphabetically, by index score ranking, and by improvement ranking.

District	No. of Students Included in the Index Score Ranking [†]	Current Year Mathematics Index Score and SE [‡]	Index Score Ranking of 76	No. of Students Included in the Prior Year Index Score Ranking	Prior Year Index Score and SE [‡]	Index Score Improvement	Index Score Improvement Ranking of 75
State of New Hampshire	15322	65.2 (+/- 0.2)	35	15182	59.8 (+/- 0.3)	5.4	30
Allenstown	1	-	A	NA	-	-	B
Auburn	0	-	A	NA	-	-	B
Barrington	1	-	A	NA	-	-	B
Bartlett	0	-	A	NA	-	-	B
Bedford	255	78.0 (+/- 1.7)	5	0	-	-	B
Berlin	129	63.4 (+/- 2.8)	42	107	46.9 (+/- 2.6)	16.5	1
Bow	155	76.8 (+/- 2.2)	8	134	68.2 (+/- 2.6)	8.6	17
Chatham	0	-	A	NA	-	-	B
Chester	1	-	A	NA	-	-	B
Chichester	1	-	A	NA	-	-	B
Claremont	150	58.0 (+/- 2.5)	63	126	58.3 (+/- 2.7)	-0.3	60
Coe-Brown Northwood Academy	172	79.1 (+/- 2.0)	2	158	73.7 (+/- 2.4)	5.4	30
Colebrook	27	64.4 (+/- 5.6)	40	37	69.7 (+/- 4.6)	-5.3	71
Concord	384	68.6 (+/- 1.6)	23	394	67.8 (+/- 1.6)	0.8	56
Contoocook Valley	246	69.9 (+/- 2.0)	21	289	59.1 (+/- 1.8)	10.8	11

[†] Number of students who contributed to the index score.

[‡] There is some variation associated with all measurement, including test scores. For example, the results of public opinion polls are reported with a margin of error, such as 54 percent plus or minus (+/-) five percent. On these ranking lists the reported variation is the standard error of the mean (SE). Please note that as the number of students increases, the SE decreases.

* The SE is less than 0.1.

"A" A ranking is not assigned when fewer than eleven (11) student scores are included in the index score for a school or district.

"B" A ranking is not assigned for index score improvement if fewer than eleven (11) student scores were included in either the current or prior year index score.

"NA" Data is not available.

Moultonborough	59	72.2 (+/- 4.0)	14	51	62.7 (+/- 4.8)	9.5	13

[†] Number of students who contributed to the index score.

[‡] There is some variation associated with all measurement, including test scores. For example, the results of public opinion polls are reported with a margin of error, such as 54 percent plus or minus (+/-) five percent. On these ranking lists the reported variation is the standard error of the mean (SE). Please note that as the number of students increases, the SE decreases.

* The SE is less than 0.1.

"A" A ranking is not assigned when fewer than eleven (11) student scores are included in the index score for a school or district.

"B" A ranking is not assigned for index score improvement if fewer than eleven (11) student scores were included in either the current or prior year index score.

"NA" Data is not available.

High School District Rankings Based on Index Scores from May 2008 NH-Alt and October 2008 NECAP Statewide Assessments Content: Mathematics

Sorted by: Index Score Ranking

The data on these ranking lists are based on the performance index scores that are calculated during Adequate Yearly Progress (AYP) reporting. Schools and districts receive a rank based on their index score. A rank of "1" represents the best performance. When a previous index score is available, a separate ranking is also calculated based on the improvement in the index score from one year to the next year. Schools that have the same index score (or the same improvement in index score) earn the same rank. Rankings are assigned by content area. The schools and districts are sorted three ways: alphabetically, by index score ranking, and by improvement ranking.

District	No. of Students Included in the Index Score Ranking [†]	Current Year Mathematics Index Score and SE [‡]	Index Score Ranking of 76	No. of Students Included in the Prior Year Index Score Ranking	Prior Year Index Score and SE [‡]	Index Score Improvement	Index Score Improvement Ranking of 75

[†] Number of students who contributed to the index score.

[‡] There is some variation associated with all measurement, including test scores. For example, the results of public opinion polls are reported with a margin of error, such as 54 percent plus or minus (+/-) five percent. On these ranking lists the reported variation is the standard error of the mean (SE). Please note that as the number of students increases, the SE decreases.

* The SE is less than 0.1.

"A" A ranking is not assigned when fewer than eleven (11) student scores are included in the index score for a school or district.

"B" A ranking is not assigned for index score improvement if fewer than eleven (11) student scores were included in either the current or prior year index score.

"NA" Data is not available.

High School District Rankings Based on Index Scores from May 2008 NH-Alt and October 2008 NECAP Statewide Assessments Content: Mathematics

Sorted by: Index Score Improvement Ranking

The data on these ranking lists are based on the performance index scores that are calculated during Adequate Yearly Progress (AYP) reporting. Schools and districts receive a rank based on their index score. A rank of "1" represents the best performance. When a previous index score is available, a separate ranking is also calculated based on the improvement in the index score from one year to the next year. Schools that have the same index score (or the same improvement in index score) earn the same rank. Rankings are assigned by content area. The schools and districts are sorted three ways: alphabetically, by index score ranking, and by improvement ranking.

District	No. of Students Included in the Index Score Ranking†	Current Year Mathematics Index Score and SE‡	Index Score Ranking of 76	No. of Students Included in the Prior Year Index Score Ranking	Prior Year Index Score and SE‡	Index Score Improvement	Index Score Improvement Ranking of 75
